## BACKGROUND :

Malda district is a backward district declared by Ministry of Panchayati Raj, Govt. of India. Moreover, north Malda is more backward than south Malda. The majority of its inhabitants are of village dwelling poor Muslim Minority Community, Scheduled Caste, OBC and other backward community people. According to different Government reports (Sachar, Mishra etc. Committee), Muslim community in India is a backward community; their socio-economic condition is even worse than that of the Scheduled Castes! Needless to mention that the Scheduled Castes are the downtrodden castes in India.

Education is the only key to all progress. Government schools are far behind in meeting the need of quality education. Whereas, the private schools are doing more business with education, they are least concerned for society or for quality of education. In this scenario the condition of the majority population in this rural area, particularly who are generally poor, is pathetic! Considering this hopeless state of the most backward population, Professor (Dr.) Md. Afsar Ali, son of the soil of this area, resolved to cater quality education to our upraising generations. Because, in this globalized world, not mere education, but exceptionally high quality of education is essential to succeed in world-wide stiff competition essential for one's survival.

In this background M. J. MEMORIAL SCHOOL (MJMS) is established at this much more backward area on 2nd January, 2016 for uplifting these citizens of our country. Waresin Ara Begom Amin saw her generosity and love for education by donating land in favour of this school. Now the School has vast land on which sufficient infrastructure (including more than 10 thousand square feet built up area, big modern auditorium, rich library, computer lab., hygiene lavoratory, playground etc.).

On 1st June, 2019 the School was shifted on its own present land and buildings in a vast open greenery adjacent to the main road on the bank of fresh village-stream, Satmoniya. Last year, on the 10th year of the school set up, it has secured the much desired prestigious affiliation from the West Bengal Board of Secondary Education as an English Medium Co-educational School.

M. J. MEMORIAL SCHOOL is a modern English Medium High School now in the truest sense with all the modern amenities and provisions needed for achieving the best quality human resource production through the best quality teaching-learning and holistic guidance. From the coming academic session (2027) we are going to start Class XI in both the Streams – Science and Arts with the subjects English, Bengali, Chemistry, Physics, Mathematics, Biology, History, Geography, Education, Food and Nutrition.

## AIMS & OBJECTIVES :

- To cater true and the best quality education among the rural populace
- To make complete human being through the development of humanity and morality along with the development of knowledge domain

## TEACHER – STUDENT RATIO :

In order to provide the best quality of education teacher's individual attention to each learner is a must. In order to ensure it, Teacher : Student ratio is maintained at 1:26 in the classroom i.e., one teacher is devoted to only about 26 students in a class room/section.

## CLASSES :

The school was started with only two classes – NURSERY & K.G. (Kindergarten) and upgrades one class every year. In the present academic year 2026, total student strength (up to class X) is 444. In the coming session (2027) the highest class will be XI, starting from Nursery. Direct admission will be done only in Nursery and K.G. classes. However, few students may be admitted in upper classes (up to IX & XI) through Admission Test only.

## HOSTEL FACILITY :

MJMS has started Students' (Boys') Hostel in the school campus from 2nd August, 2021. Well qualified and experienced teachers from Kolkata and around are residing in this hostel along with the student boarders. At present 4 numbers of residential teachers are deputed for only 35 numbers of student boarders. The residential teachers give academic coaching and all-round perfect guidance to the residential students beyond school-hours as well as cater quality education to the day students of this school during the school hour. We ensure a very good hostel and campus environment congenial for children's holistic development.

School's Hostel (Boys') facility is available for the students from classes I to XI as well as for the residential teachers.

## DAY STUDENTS' COACHING FACILITY :

The School provides coaching facility to our non-residential students also in the morning time, 7 to 9 pm daily (except Sunday). ## NEGLIGIBLE DROPOUT RATE :

Although the School is situated in a rural hinterland with more than 90 per cent of its first-generation learners, but its dropout rate is miraculously negligible. This is one of the achievements of this School.
